WORK EXPERIENCE

Mish Guru — Dec 2016 — Nov 2019

Senior Software Developer

Working as a full-stack developer on the Mish Guru product (www.mish.guru). Helping to build out a brand new front-end using React and Apollo, planning and implementing a GraphQL API, and maintaining a large collection of microservices.

Spark Ventures — Jul 2015 — Dec 2016

Software Developer

Working as a full-stack developer on the Lightbox website (lightbox.co.nz). Helped convert the site from Angular to React + Redux + webpack, setup a GraphQL API to improve performance and setup a CI system to improve productivity.

Crimson Consulting — May 2016 — Nov 2016

Web Developer

Contracted by Crimson to build a brand new marketing site (crimsoneducation.org) using React with server side rendering on Node.js. Also helped to build a single-sign-on account system with Auth0 and Discourse.

John Paul College Rotorua — Jul 2014 — Apr 2015

Web Developer

Creation of a complete website solution using the SilverStripe CMS. Features include a modern new design, a landing page, multilingual content, KAMAR calendar integration and a photo gallery.

Pantry d'Or — May 2014 — Dec 2014

Web Developer

Website design and development using the SilverStripe CMS, with fresh content loaded from their Facebook page. Project also included designing their logo, business cards, street signs and several other items.

EDUCATION

Bachelor of Computing, Communications and Technology — Jan 2012 — Dec 2014

Waiariki Institute of Technology

AWARDS

Undergraduate Scholarship — Jan 2014

Rotorua Energy Charitable Trust
